Profile

I'm a Bsc. Telecommunication and Information technology graduate. I also took a one-year software engineering program at ALX Africa. I aim to work anywhere where I will contribute to the growth of a company using all the skills I have gained up to now while also polishing my skills and learning more.

Education

06/2022 – 07/2023
Nairobi, Kenya

Software engineering programme, ALX Africa [🔗](#)

- Completed hands-on projects that put learned skills to work.
- Emulated a real life working environment with tasks and workflow using git and remote repositories.

12/2021
Nairobi, Kenya

Bsc. Telecommunication and Information Technology, Kenyatta University

Projects

02/2023 – 04/2023

AI image generation app [🔗](#)

This was a project to fulfill the requirements the foundations part of the ALX software engineering programme. It takes advantage of OpenAI's DALL-E API to generate images using prompts and share the creations with the community.

06/2023 – 07/2023

Movie cataloguing app [🔗](#)

A simple web app to display movies pulled from an API. Requires logging in to access the catalogue.

08/2023

Expense tracker [🔗](#)

I built a simple expense tracker app with basic CRUD operations and complete with a frontend using the MEVN stack.
