## Profile

---

I'm a Bsc. Telecommunication and Information technology graduate. I also took a one-year software engineering program at ALX Africa. I aim to work anywhere where I will contribute to the growth of a company using all the skills I have gained up to now while also polishing my skills and learning more.

## Education

---

Nairobi, Kenya	<b>Bsc. Telecommunication and Information Technology</b> , <i>Kenyatta University</i>
Nairobi, Kenya	<b>Software engineering programme</b> , <i>ALX Africa</i> <a href="#">🔗</a> <ul style="list-style-type: none"><li>• Completed hands-on projects that put learned skills to work.</li><li>• Emulated a real life working environment with tasks and workflow using git and remote repositories.</li></ul>

## Projects

---

### AI image generation app [🔗](#)

The AI Image Generation App harnesses the power of OpenAI's cutting-edge DALL-E API to bring your creative visions to life through stunning image generation. With this application, you can effortlessly craft images by providing prompts and share your artistic creations with like-minded enthusiasts.

### Movie cataloguing app [🔗](#)

Discover a world of cinema with our Movie Cataloging App. This intuitive web application effortlessly retrieves an extensive collection of movies from an API, ensuring you have access to your favorite films in one convenient place. Dive into the catalog's rich offerings by logging in and curating your own cinematic adventure.

### Expense tracker [🔗](#)

The Expense Tracker App is a financial management tool that simplifies expense tracking. This application features essential CRUD (Create, Read, Update, Delete) operations and boasts a sleek frontend developed using the robust MEVN stack (MongoDB, Express.js, Vue.js, Node.js).
